Introducing

A C C E S S

COKER

Taking learning *beyond the classroom.*

A guide for *students*

COKER
COLLEGE

Why AccessCoker?

We all learn in our own way. For some, watching a video helps us to understand things better. Others prefer writing down lists, typing out notes, or bouncing ideas back and forth in a shared Google Doc. Some of us like to get work done in the library, while others prefer the comfort of our own room.

No matter how you learn, Coker welcomes you—and AccessCoker is here to make learning easier and more, well, accessible than ever before.

So what is AccessCoker, anyway?

AccessCoker is a campus-wide initiative that embodies Coker's mission of developing a lifelong passion for learning within our college community. We're using innovative tools and resources to personalize the college experience, create connections, and reimagine collaboration.

Beginning with a pilot program in fall 2018, all incoming first-year students at our Hartsville campus will be equipped with an iPad® and Apple Pencil®. You'll use these devices throughout your college career, and upon your graduation from Coker, they are yours to keep!

AccessCoker Support & Resources

Sophomore Commissioners

Our sophomore commissioners will attend special training for AccessCoker devices. They will be equipped to provide basic assistance and resources for their first-year student families and CC 101 instructors.

IT Help Desk

If you have a problem with your device, Information Technology staff can be reached at support@coker.edu or by visiting support.coker.edu

Apps You'll Love!

One of the best things about your new AccessCoker iPad is its flexibility. You can customize your device to meet your unique needs by downloading any variety of apps—for use both inside and outside the classroom. Here are a few recommendations to get you started.

BLACKBOARD
Manage your Blackboard courses, communicate with students, participate in discussion boards, and more.

BLACKBOARD MYCONNECT
Sign up for CobrAlerts and receive push notifications when emergency messages are released.

CAMSCANNER
If you're not near a scanner (or don't feel like logging into your department's copier machine), you can scan your documents using your mobile device camera! The app also allows you to save the document as a JPEG or PDF and email or Airdrop it to yourself.

ELLUCIAN GO
Search for Coker College, log in with your normal credentials, and you'll have easy access to everything from class schedules to dining hall menus.
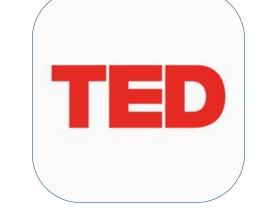

GMAIL
Check your campus email on the go!

GOOGLE DRIVE
Access all your Google Drive documents from your iPad. Apps are also available for Google Docs, Google Sheets, and other G Suite for Education products.

MINT
Keep track of your finances and stay on budget with guidance from Mint.

NEW YORK TIMES
Did you know you can access the New York Times free of charge through the Coker library? You can also keep up with the news on your AccessCoker iPad when you download this app.

SPOTIFY
Your AccessCoker iPad isn't just for class! Stream music with Spotify, or download apps for any of your favorite streaming services.

TED
Looking for some inspiration? Thousands of TED Talks are now at your fingertips. You can even build a custom playlist!

This is just the beginning! There are plenty of other apps out there, including apps that are specific to certain disciplines, subject areas, sports, and interests. An in-depth, curated list of recommendations is available in your AccessCoker device's pre-installed **Self Service** app. Enjoy exploring, and let us know if you find an app you love!
